

The Town Of Newland is looking to hire a full time Public Works Maintenance Worker 1. An employee in this class performs a variety of unskilled and semi-skilled work as a member of a crew engaged in the construction, repair and maintenance of water and sewer lines, streets, parks, and buildings. Work includes making water and sewer taps, connecting, maintaining and replacing hydrants, meters, and valves; making repairs to the pipes and drainage basins; patching streets; mowing grass, reading meters, and performing basic building maintenance. Work involves the use of a variety of tools and light equipment and occasional operation of construction equipment in the installation, replacement and repair of water and sewer pipes and streets when crew leader is out. Employees are subject to working in both inside and outside environments, in extreme hot and cold weather, and exposure to various hazards such as loud noises, vibration, moving mechanical parts, electrical current, chemicals, fumes, odors, dusts, mists, gases, poor ventilation, and oils. Work is also subject to the final standards of OSHA on bloodborne pathogens. Employee must be able to perform strenuous work over a long period of time. Employees are also subject to on-call and call-back work. Work is performed under regular supervision and is evaluated through observation and inspection for adherence to instructions and standard trade and safety practices. Employee must have high school diploma or GED. Please bring your resume to the Town Hall in Newland. The Town of Newland is an equal opportunity employer.
